Purification  
2022**

# Desktop Filtration systems

## DT172-PM

- Modern Silver finish
- Complete with purifier & mineraliser (Bottle + Carbon Combo Filter set) No need to remove bottle, just fill up
- Hot & cold water outlets
- Hot water outlet – 85°C-95°C
- Cold water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

Staff compliment of 5-8 people

## DT172-PC

- Modern Silver finish with 18.9 Lt PC bottle
- Free standing, desktop unit with compressor
- Buy bottled water
- Hot & Cold water outlets
- Hot water outlet – 85°C-95°C
- Cold Water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

Staff compliment of 5-8 people

## Mineral Pot

- Portable unit
- No electricity needed
- Compact packaging
- Modern finish
- Complete with Carbon Combo Filter set (Ceramic Dome, Carbon Filter, Mineral Stones)

Purified water – wherever you go!

Staff compliment of 5-8 people

# Freestanding systems

## HHX172-PMCA

- Modern Silver finish
- Complete with purifier & mineraliser (Bottle + Carbon Combo Filter set)
- No need to remove bottle, just fill up
- Cold & ambient water outlets
- Cold water outlet – 4°-12°
- Dispenses 20 cups of Cold water per hour

Staff compliment of 5-8 people

## HHX172-PCCA

- Modern Silver finish with 18.9 lt PC bottle
- Buy bottled water
- Cold & ambient water outlets
- Cold water outlet – 4°-12°
- Dispenses 20 cups of Cold water per hour

Staff compliment of 5-8 people

## HHX172-PM

- Modern Silver finish
- Complete with purifier & mineraliser (Bottle + Carbon Combo Filter set)
- No need to remove bottle, just fill up
- Hot & cold water outlets
- Hot water outlet – 85°C-95°C
- Cold water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

Staff compliment of 5-8 people

## HHX172-PC

- Modern Silver finish with 18.9 lt PC bottle
- Free standing, desktop unit with compressor
- Buy bottled water
- Hot & Cold water outlets
- Hot water outlet – 85°C-95°C
- Cold Water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

Staff compliment of 5-8 people

# Inline Cooling Dispensers

## HHX172-IC

- Modern Silver finish
- 2 stage inline filtration system neatly housed in the storage compartment.
- Hot & cold water outlets
- Hot water outlet – 85°C-95°C
- Cold water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

## DT172-IC

- Modern Silver finish
- 2 stage inline filtration system attached to the back grill, which can be placed under counter should counter space be limited.
- Hot & cold water outlets
- Hot water outlet – 85°C-95°C
- Cold water outlet – 4°C-12°C
- Cooling Capacity: 2.8L per hour
- Heating Capacity: 5L per hour

## SST

- Modern Stainless Steel finish
- Directly connected to water supply
- Needs to be installed close to a drain outlet
- Dispenses 20 litres of COLD water per hour
- Complete with CBC Carbon Block & PP10 Sediment filters
- Removes 99% of chlorine in municipal water
- Removes lead and other heavy metals

**NB—this unit needs drainage**

# Inline Non-Cooling Systems

## UWF 5 Stage

- This system filters water down to 0.2 Microns, removing small particles like chlorine, bacteria and parasites.
- Fitted under the counter top, easy to maintain.
- Promotes a healthy lifestyle and preserves the natural mineral content of the source water.
- Unlike RO and Nano systems, there is no water wastage
- Includes 1 x 10" sediment filter, 2 x 10" carbon block filters, ultra filtration membrane and a T33 post activated carbon, taste and odour filter

## UWF

- Fitted inside cupboard, underneath basin, close to a drain
- 2 stage water purification system
- PP10 Sediment filter & CBC5 Carbon filter
- Removes sediment, clay, silt, chlorine, trihalomehtanes (a result of chlorination that is associated with cancer), heavy metals, micro organisms
- Creates fresh, clean and purified water
- Releases minerals into the water
- Restore ph. balance of water to a mild alkaline

Reduces lime scale build up

## CWF

- Fitted on the counter top, close to a drain
- 2-stage water purification system
- Sediment filter & Carbon KDF filter
- Removes sediment, clay, silt, chlorine, trihalomehtanes (a result of chlorination that is associated with cancer), heavy metals, micro organisms
- Creates fresh, clean and purified water
- Releases minerals into the water
- Restore ph. balance of water to a mild alkaline

## Big Blue

- This 3 in 1 20" Jumbo Big Blue water purification system is installed on the main water supply of the household.
- Supplies and purifies the household's water from sediment, rust and chemicals. (Such as chlorine, pesticides, heavy metals such as copper, lead and gold.)

# Industrial coolers

## EP80L Chiller

- Modern Stainless Steel finish
- Directly connected to water supply
- Needs to be installed close to a drain outlet
- Dispenses 80 litres of COLD water per hour
- (H)945mm x (D)330mm x (W)650mm

## EP40L Chiller

- Modern Stainless Steel finish
- Directly connected to water supply
- Needs to be installed close to a drain outlet
- Dispenses 40 litres of COLD water per hour
- (H)940mm x (D)330mm x (W)335mm

## YL600F Chiller

- Modern Stainless Steel finish
- Directly connected to water supply
- Needs to be installed close to a drain outlet
- Dispenses 80 litres of COLD water per hour
- Complete with CBC Carbon Block & PP10 Sediment filters
- Removes 99% of chlorine in municipal water
- Removes lead and other heavy metals
